GOVERNOR OF FLORIDA

*from*

THE FLORIDA STATE RACING COMMISSION

JULY 1, 1951, THROUGH JUNE 30, 1952

---

July 1, 1952

His Excellency Fuller Warren  
Governor of Florida  
Tallahassee, Florida

Sir:

Pursuant to and in compliance with the requirement contained in Section 550.02, subsection 2, Florida Statutes, 1941, as amended, the Florida State Racing Commission submits this, its Twenty-first Annual Report for the period commencing July 1, 1951 to and including June 30, 1952.

Membership of the Commission from July 1, 1951, to June 30, 1952, consisted of the following named persons and the Congressional District from which they served:

Carl Hanton, Fort Myers.....	First District
G. Warren Sanchez, Live Oak.....	Second District
Charles S. Isler, Jr., Panama City.....	Third District
D. C. Jones, Naples.....	Fourth District
Lawrence Rogers, Kissimmee.....	Fifth District

During the above stated period of time D. C. Jones and G. Warren Sanchez served as Chairman and Secretary of the Commission, respectively, and Manuel M. Garcia, of Tampa, as Attorney for the Commission.

## MEETINGS

During the period covered by this Annual Report formal meetings were held by the Commission on the following dates and at the following places:

August 8, 1951 .....	Panama City
August 9, 1951 .....	Tallahassee
October 13, 1951 .....	Miami
November 17, 1951 .....	Miami
December 31, 1951 .....	Miami
January 11, 1952 .....	Miami
February 8, 1952 .....	Miami
April 18, 1952 .....	Miami
June 6, 1952 .....	Miami

## RACING DATES

Racing dates were granted the various operators of Dog Tracks, Jai Alai Fronton and Horse Tracks for the seasons beginning October 15, 1951, and ending September 17, 1952, as follows:

### WINTER DATES

#### DOG TRACKS (in order of opening dates)

- Orange Park Kennel Club, Inc., Orange Park  
75 days—October 15, 1951 to November 17, 1951; Reopen  
April 12, 1952 to June 3, 1952
- Biscayne Kennel Club, Inc., Miami  
91 days—November 14, 1951 to January 5, 1952 (Closed  
December 25th); Reopen April 10, 1952 to June 2, 1952
- Associated Outdoor Club, Inc., Tampa  
91 days—November 15, 1951 to February 29, 1952 (Closed  
December 24th)
- Broward County Kennel Club, Inc., Hollywood  
91 days—December 25, 1951 to April 8, 1952
- Jacksonville Kennel Club, Inc., Jacksonville  
91 days—December 25, 1951 to April 8, 1952
- West Flagler Kennel Club, Inc., Miami  
91 days—December 26, 1951 to April 9, 1952
- Sanford-Orlando Kennel Club, Inc., Longwood  
91 days—December 26, 1951 to April 10, 1952 (Closed Janu-  
ary 1st)
- St. Petersburg Kennel Club, Inc., St. Petersburg  
91 days—December 28, 1951 to April 12, 1952
- Miami Beach Kennel Club, Inc., Miami Beach  
91 days—January 1, 1952 to April 15, 1952
- Palm Beach Kennel Club, Inc., West Palm Beach  
91 days—January 2, 1952 to April 16, 1952
- Sarasota Kennel Club, Inc., Sarasota  
80 days—March 1, 1952 to June 2, 1952

## JAI-ALAI FRONTON

Fronton Exhibition Company, Miami  
101 days—December 15, 1951 to April 11, 1952

## HORSE TRACKS

Gables Racing Association, Inc., Coral Gables  
41 days—November 30, 1951 to January 16, 1952

Hialeah Race Course, Inc., Hialeah  
40 days—January 17, 1952 to March 3, 1952

Sunshine Park Racing Association, Inc., Oldsmar  
49 days—January 19, 1952 to March 15, 1952

Gulfstream Park Racing Association, Inc., Hollywood  
41 days—March 4, 1952 to April 19, 1952

## SUMMER DATES

## DOG TRACKS

Pensacola Kennel Club, Inc., Pensacola  
92 days—June 14, 1952 to September 27, 1952

Volusia County Kennel Club, Inc., Daytona Beach  
91 days—June 4, 1952 to September 17, 1952

## FLORIDA A NATIONAL RACING CENTER

Our State is today regarded as one of the nation's foremost racing centers. Since the advent of authorized pari-mutuel wagering on horse and dog races in this State in 1931, racing has grown and spread from a small speculative, four-month seasonal tourist attraction to a solidly established and profitable year-round industry, without losing its traditional color and thrilling attraction.

Racing in this State is no longer an incidental seasonal form of entertainment, but has become an integral part of our economy and today pari-mutuel wagering on races is authorized and conducted during practically the entire year. During the 1951-52 season your Commission had under its supervision the operations of 4 running horse tracks, 13 greyhound tracks and 1 jai-alai fronton. These 18 operators expended a total of 1,423 racing and playing days, exclusive, however, of the 17 additional days that the various operators expended in behalf and for the benefit of the State Scholarship Fund. These activities took place during the period from July 1, 1951 to June 30, 1952.

Besides being the State's fifth largest producer of public revenue, and a leading source of entertainment to the thousands of visitors it attracts, racing stimulates additional employment to many of our citizens and income and profits to local business in sales and service rendered to racing enthusiasts and many other persons who are directly and indirectly connected with this sport while residing in this State.

During the period covered by this report there was employed by the various operators 5,266 persons, of which 85% were citizens of Florida

and who were paid a like percentage of a total payroll of \$5,793,876.20. In addition to the personnel directly employed by the operators, your Commission had under its jurisdiction 4,781 other persons who were connected with other activities of the sport, such as players, ball boys, owners, trainers, jockeys, grooms, etc. In all, your Commission had under its jurisdiction and supervision 10,047 persons who were issued occupational licenses.

It would be difficult to calculate the many other citizens that receive benefits through and employment in other business channels that are stimulated by racing activities.

During the 1951-52 season wagering in this State reached an all-time high of nearly a quarter of a billion dollars, from which the State and operators benefited and profited and of which amount approximately 85% was distributed to the general betting public as dividends or awards on winning pari-mutuel tickets.

A more detailed account appears from the data and statements hereafter included in this report relating to receipts and disbursements, attendance, pari-mutuel wagering, and taxes, together with other information relative to the officers and operations of each licensed operator.

### ATTENDANCE AND WAGERING

Of the 1,423 racing and playing days granted to and expended by the 18 licensed operators during the 1951-52 season, 4 horse tracks operated 168 days, 13 dog tracks 1,155 days and the jai-alai fronton 100 days. The combined activities attracted a total paid attendance of 5,279,674 patrons, of which 1,551,669 attended horse races, 3,392,618 patronized dog tracks and 335,387 saw jai-alai games. There was an all-time high total wagering of \$248,728,380.00, of which there was wagered at the horse tracks \$140,133,513.00, at the dog tracks \$103,476,595.00, and at the fronton \$5,118,272.00.

A comparison with the preceding 1950-51 season, which resulted in a total paid attendance of 4,643,293 patrons, who wagered a total of \$204,385,597.00 during 1,378 racing and playing days, affirmatively discloses a substantial increase during the 1951-52 season in both wagering and attendance. The record reflects that an additional 636,381 persons attended racing activities during the 1951-52 season, or an increase of 13.7% in paid attendance over the previous season, and these additional patrons increased the wagering over the previous season in the amount of \$44,342,783.00, or a 21.7% increase in total wagering. It is significant to note that while there was a total general increase in both attendance and wagering, each individual operator also experienced a substantial increase in both attendance and wagering. Over the previous season wagering increased at horse tracks \$26,774,845.00, or 23.6%, and at dog tracks and jai-alai fronton \$17,567,938.00, or 19.3%, and attendance increased at horse tracks 212,184, or 15.8%, and at dog tracks and jai-alai fronton 424,197, or 12.8%.

The substantial increases in attendance and particularly in wagering demonstrate that racing is in a sound and healthy condition. These in-

creases in wagering and attendance are directly accountable and attributed to your consistent and determined efforts in suppressing and stopping all forms of illegal gambling in this State and by the enactment into law during your administration of the "Anti-Bookie Bill" in the 1951 Legislature. These two forces have compelled many persons to personally frequent and attend race tracks in order to make their wagers, which, by necessity, brought about the increase in attendance and wagering.

### REVENUE TO STATE

Income to the State from racing is primarily derived from the State's commission on the volume of pari-mutuel wagering, while income from admission depends on attendance at race tracks rather than volume of wagering. The State levies a tax of 5% on the volume of wagering on dog races and jai-alai games, and 8% on horse races, and collects a uniform admission tax of 10c per person or 15% of the established admission price, whichever is greater, as well as collecting other miscellaneous kindred taxes.

The total revenue derived by the State for the period covered by this report amounted to \$18,090,497.77, which amount represents a dollar increase of \$3,093,011.67, or 20.6% over the previous season. The various operators received as their total share from pari-mutuel wagering the sum of \$23,693,494.95, of which the horse tracks realized \$10,232,458.87 and the dog tracks and jai-alai fronton \$13,461,036.08. There was distributed to the betting public out of the total amount of \$248,728,380.00 wagered, the sum of \$207,697,550.35 as dividends on winning pari-mutuel tickets.

The 67 counties of this State each received, as their proportionate share, the sum of \$112,000.00, which amount represents an increase of \$19,500, or 21% more than received by each county during the previous season, and is greatly in excess of the \$33,000.00 guaranteed to each county by law.

The Old Age Assistance Fund also experienced an increase. Its share of income amounted to \$9,991,390.73, which amount is 21% or \$1,727,060.96 more than was paid into the Old Age Assistance Fund during the previous season. Of the aggregate amount of over \$18,000,000.00 collected by your Commission during the current season from all racing activities, only 1.78% was expended by your Commission in connection with its year-round activities in controlling, directing and supervising the operations and activities of the various licensed operators. It is evident that revenue derived from racing compares most favorably with any other source of State revenue, particularly as the expense of collecting, supervising and policing is concerned.

### COMMISSION LABORATORY

During the racing season covered by this report, the Commission's toxicology laboratory in Miami analyzed 5,500 samples of saliva and urine taken from horses and dogs competing at race tracks, as well as several other miscellaneous samples of liniments, muzzle scrapings, salt, vomitus, tonics, food, syringes, needles, etc., for the purpose of determining whether

or not the animals competing at the race tracks may have been improperly stimulated or depressed prior to a race. The aforesaid samples are collected at the various licensed tracks by the Commission's agents under the supervision of the Commission's veterinarians and thereafter are submitted to Dr. Elsie S. Bellows, Ph.D., Chief Chemist of your Commission, for analysis, and the findings are reported to your Commission for appropriate action. Of the 5,550 samples analyzed by your Commission's toxicology laboratory, only two were found to be positive for stimulants. Each case was investigated and the person in charge of the animal given the opportunity to be heard before the Commission. After such procedure, the Commission, in each case, barred the guilty offender from all race tracks for life.

It is evident from the small number of samples found to contain stimulants, and the certainty of punishment to offenders, that this improper and unlawful method of affecting the results of races is practically nil in this State. This is due to the very careful supervision and policing of your Commission by its officials and employees charged with that responsibility.

In addition, your Commission's laboratory has analyzed 120 submitted samples of saliva and urine from horses competing at the race track in Havana, Cuba, for which your Commission charges and receives \$10.00 per specimen.

Dr. Elsie S. Bellows, your Commission's Chief Chemist, is a recognized authority and expert in this field of chemistry. On numerous occasions she has been called upon for assistance and advice by the State and Federal Narcotic agents, as well as the Federal Bureau of Investigation. Dr. Bellows was the first racing chemist in America to make a derivation of identification pattern for the new synthetic narcotic "dromoran," as well as assisting the State Director of Narcotics in giving proper definitions to heretofore unrecognized narcotics.

#### SCHOLARSHIP FUND

Chapter 25258, Laws 1945, known as the "Scholarship Fund," which, during your administration, was adopted by the Legislature at your instance and request, has proven to serve a most worthwhile cause. This law, which authorizes any race track in this State to operate an additional day of racing for the purpose of creating and providing State Scholarships from the profits derived therefrom, the race tracks consenting thereto and operating the additional day during the current season paid into the fund the generous total sum of \$239,147.74. These moneys are administered and supervised by the State Board of Control and have been made available to worthy students attending State institutions of higher learning. During the three seasons that this law has been in effect, the various licensed operators operating the additional day have made available to the State Board of Control for this worthy cause, the total sum of \$652,238.49.

#### LAW ENFORCEMENT

Your Commission has been vigilant in preventing and suppressing any activity within its jurisdiction that might be detrimental or not conducive to the best interests of racing.

Each track is required to submit to your Commission a daily report showing the name and address of each person ejected from the track and the reason for such ejection. Under this procedure your Commission is kept abreast of illegal activities, if any, and advised of the efforts of each race track in properly policing their operations, which affords the Commission the opportunity to take prompt and appropriate action, if necessary.

All persons employed by race tracks, including State employees, are prohibited from making any wager, directly or indirectly, on the results of any race at such race track. This requirement avoids any opportunity for suspicion of irregularity by the general public.

To further preserve the integrity of the sport, your Commission will not permit any person who has purchased a Federal Gambling License to enter or remain within the enclosure of any race track in this State.

Pursuant to Chapter 26832, Acts of 1951, your Commission has inaugurated a system of identification of every person licensed by your Commission for employment by race tracks. Each person licensed by your Commission, as well as the officers and directors of each race track, are compelled to submit to your Commission, before being issued an occupational license, their photograph and fingerprints. The prints and photographs are submitted to the F.B.I. for a report as to such person's criminal background, if any. This service is rendered to the Commission by the F.B.I. without charge. Your Commission has installed new equipment to handle the processing and filing of such persons' photographs and fingerprints and it is expected that at least 10,000 persons will be processed, as hereinbefore stated, during the first year. Under this system certain undesirable persons will be eliminated from employment at race tracks or from participating in racing activities in this State and thus further prevent any contamination of this worthwhile sport and substantial revenue producer.

Your Commission, in dealing with offenders charged with committing acts detrimental to racing and not conducive to its best interests, have, in each instance, given hearings, when requested, and in each case punished according to the seriousness and aggravation of the offense, including suspensions and revocations of occupational licenses or barring persons for life from frequenting race tracks in this State.

By legal reciprocity your Commission's orders and rulings are honored by all other racing authorities in the United States, and we, in turn, respect our sister States' actions. Under this reciprocal agreement, a State racing authority's denial of privileges to a person in its State operates to deny such privilege to such person in any other State until the denial has been lifted or set aside by the original State racing authority.

## PUBLIC RELATIONS

Your Commission has made every effort to develop warm and friendly relations with all persons connected, directly or indirectly, with racing, including the press, civic organizations, law enforcement agencies and the general public. We feel that the success of racing, reflected by this

report, is due, in part, to the cooperative spirit demonstrated by your Commission and the persons with whom it worked.

The business of your Commission has been administered publicly and openly and no person has ever been denied the opportunity to express or voice their views or opinions on any matter or question before your Commission at any of its meetings and the records of your Commission have always been open and available, as provided by law. Although your Commission has strictly and rigidly supervised racing activities and the persons connected therewith in order to protect the interests of the public and the State, we have, nevertheless, been just and fair in all our actions.

Because we have demonstrated a sense of fairness and justice and a spirit of cooperation and friendly relations, your Commission was able to intercede in a dispute between a horse track and horse owners and trainers and thus prevented an apparent strike which would have stopped racing at said horse track and the State would have suffered a considerable loss of revenue, as experienced by a former administration when a strike resulted in closing down racing at a horse track over an identical dispute.

### LITIGATION

In the case of Broward County Kennel Club, Inc., v. State Racing Commission, 55 So. (2d) 810, the authority of the Racing Commission to grant a permit to operate a jai-alai fronton in Broward County was upheld.

There is now pending in the Supreme Court of Florida the question of your Commission's authority to pass upon the qualifications of stockholders and employees of race tracks. Your Commission took action to compel certain persons to sever their financial interests in race tracks in this State and to prohibit them from being employed by said race tracks, which action of the Commission was held to be without authority by the lower court, from which order of the lower court your Commission has taken an appeal to the Supreme Court.

### CONCLUSION

Your Commission, during its short time of service, has diligently strived to keep racing upon a high plane so that it will always merit the confidence of the public, and we pledge to you and the people of Florida our continued loyalty and best efforts.

As heretofore, and in detail hereafter, shown, no other form of taxation in this State results in such substantial revenue to the State, with so little imposition on its citizens, as racing. Besides being a substantial revenue producer, it has played a great part in bringing to our State many visitors, including those who make a livelihood from the sport, in addition to stimulating other businesses by the influx of people it draws. Many persons who would not have come to this State, except for the attraction of racing, have made Florida their permanent residence. For these reasons, racing should be fostered and encouraged in every way legitimately practicable.

We would like to take this opportunity of expressing our sincere and genuine appreciation to those persons employed by your Commission to carry out its mandates and functions. It is largely due to their loyalty and diligence that this State has experienced a banner year. Particularly are we grateful to Mr. Robert Kelly, our able and conscientious supervisor of racing for over a decade; Mrs. Inez Martin, our office secretary, who has been so patient and who has served this and other Commissions capably and efficiently for several years; Mr. Irving Harrington, our office auditor, with the Commission since 1943 and who has handled all receipts and disbursements in a very capable and efficient manner; Mrs. Myrtis Turner, license clerk and stenographer, who has been with the Commission since 1937 with an interim of three and one-half years with the Federal government during the war; Mrs. Jessie Flegal, payroll clerk and stenographer, who has been with the Commission for the past three years and Mrs. Martha Martin, stenographer, with the Commission for the past season. We also wish to commend Dr. Elsie Bellows, Ph.D., Chief Chemist in charge of the Commission laboratory, Dr. E. D. Clawson, Chief Veterinarian, and Charles Nelson and F. G. Wilson, Stewards at the horse tracks, who have each merited the confidence and exhibited the ability and qualifications required by their respective positions.

We sincerely trust that in the future the same spirit of cooperation and high standards of racing will continue as they have during the period covered by this report. We wish to express to you, as Governor, our deep appreciation for the confidence and trust reposed in us in the administration of racing in our State.

Respectfully,

D. C. JONES, *Chairman*  
G. WARREN SANCHEZ, *Secretary*

1. The Role of the State in Economic Development

The state plays a crucial role in economic development, particularly in the early stages of growth. It provides the necessary infrastructure, legal framework, and public services that are essential for businesses to operate and for investment to flow. In many developing countries, the state is the primary source of capital and is responsible for mobilizing resources to fund large-scale infrastructure projects such as roads, bridges, and power generation. Additionally, the state often acts as a regulator, ensuring fair competition and protecting the interests of consumers and workers. However, the state's role can also be a source of inefficiency and corruption if it is not properly managed. Therefore, it is important to strike a balance between state intervention and market freedom to achieve sustainable economic growth.

The state's role in economic development is a complex and multifaceted one, and it varies significantly across different countries and stages of development. While some countries have successfully leveraged state power to promote rapid growth, others have struggled with bureaucratic inefficiency and corruption. The key is to design a state that is effective, accountable, and responsive to the needs of its citizens.
